Alligator Candy: A Memoir By David Kushner

From award-winning journalist David Kushner, a regular contributor to *Rolling Stone*, *The New Yorker*, *Vanity Fair*, and other premier magazines, *Alligator Candy* is a reported memoir about family, survival, and the unwavering power of love.

David Kushner grew up in the early 1970s in the Florida suburbs. It was when kids still ran free, riding bikes and disappearing into the nearby woods for hours at a time. One morning in 1973, however, everything changed. David's older brother Jon biked through the forest to the convenience store for candy, and never returned.

Every life has a defining moment, a single act that charts the course we take and determines who we become. For Kushner, it was Jon's disappearance—a tragedy that shocked his family and the community at large. Decades later, now a grown man with kids of his own, Kushner found himself unsatisfied with his own memories and decided to revisit the episode a different way: through the eyes of a reporter. His investigation brought him back to the places and people he once knew and slowly made him realize just how much his past had affected his present. After sifting through hundreds of documents and reports, conducting dozens of interviews, and poring over numerous firsthand accounts, he has produced a powerful and inspiring story of loss, perseverance, and memory. *Alligator Candy* is searing and unforgettable.

Editorial Review

From School Library Journal

On October 28, 1973, 11-year-old Jonathan Kushner hopped on his bike and took off for the 7-Eleven. Jon's four-year-old brother, David, stood on the sidewalk and watched him peddle away. It's a small detail that might have been lost in years of subsequent day, except that this was the last time that David saw Jon alive. Over the years, the questions that haunt him stem from this moment: Could David have changed Jon's mind? If David hadn't begged his brother to buy him a toy, would Jon have gone? Readers experience the sequence of events through the perspective of David as a child: Jon's bike found off the path, Jon's body in the trunk of a car, Jon's funeral. Kids at school said that the killers had pickled Jon's body and put it in a jar. David's father said that David was inside when Jon left and could not have been the last one to see him. What really happened? At 13, David started furtively hunting through the library's microfilmed newspaper articles, searching for information about Jon's death. Teens will relate both to David's need to uncover the truth and his desire to protect his parents from what he discovers. The crime is always presented from David's intensely personal perspective, and his sense of horror is excruciatingly amplified as he realizes that his parents have known the disturbing details all along. More than 40 years later, Kushner, now an acclaimed author and journalist, is ready to tell the story. VERDICT Teens looking for graphic details would do better with titles such as Vincent Bugliosi's *Helter Skelter*. But those seeking to understand how life continues after a grave loss will love Kushner's eloquent words and personal viewpoint.—Diane Colson, Gainesville City College, FL

A probing, poignant memoir about tragedy, grief, and trying to cope.” —*Kirkus Reviews*

“Kushner’s riveting memoir, *Alligator Candy*, begins by asking how any parent or family can survive such unimaginable evil and devastating grief....Parents today can understand the love, hope and fear he so eloquently describes in this account of one family’s transcendent courage in the face of crushing pain.”
