## **Editorial Review**

### Review

Being a fourth-generation practitioner of TCM with 40 years of clinical experience, as well as being a Master of Qigong and director of the TCM Research Institute wherein my duties include teaching Chinese medicine to medical professionals worldwide, I deeply believe that this book, **Biomedical Acupuncture for Pain Management: An Integrative Approach**, is a milestone on the road toward integration of acupuncture into mainstream medicine and that it will open the door of acupuncture therapy to Western healthcare professionals.

— *Song Zhen-zhi, OMD, PhD*

*Executive Secretary of the Chinese Association of Outstanding Acupuncture Techniques*

*Laureate of "The 100 Best TCM Doctors in China"*

This book is an indispensable guide to effectively incorporating acupuncture into any modern medical practice. The INMAS system is understandable and a brilliant distillation of this complex ancient healing art. I strongly endorse this innovative and practical textbook for all physicians who deal with neuromuscular symptoms.

— *Francene Mason, MD*

*Author of the book **The FORCE Program: The Proven Way to Fight Cancer Through Physical Activity and Exercise***

## **Users Review**

### **From reader reviews:**

#### **Sheila Cyr:**

In this 21st centuries, people become competitive in most way.
