Charts Don't Lie: 4 Untold Trading Indicators and How to Make Money with Technical Analysis By Steve Ryan

MACD, ADX, Stochastics, Fibonacci, RSI, Parabolic SAR, StochRSI, Aroon, Ease of Movement (EMV)....are you confused already?

What happened if these trading indicators contradict one another?

Have you ever slammed your trading desk because of frustration and confusion over which trading indicators to use?

Trading indicators are mercurial. Sometimes it is as if they work wonder to predict the direction of the price. The other times...the price seem to totally ignore them.

Speculation (trading and investing) is undoubtedly one of the hardest professions in the world. They require unparalleled focus, discipline, confidence, and conviction, while being able to be flexible at all times, no exception.

Trading indicators should be helpful in achieving that.

However, without the right indicators and knowledge to use them, no way an investor can make money.

THE GOOD NEWS: The popular trading indicators mentioned above and in most trading books are NOT the only ones out there.

There are more....and YOU are about to find out. These 4 rarely-used trading indicators will bring you extra clarity --- and more profits too.

What you and I will explore together:

1) There one caveat of using trading indicators, no matter how accurate they are.

- 2) The one common denominator all trading indicators have that can make you extra profits.
- 3) The four easy ways to set up trading indicators to prepare you to make profits in the stock market, or any market not excluding options, futures, and Forex.
- 4) The one key to use all four indicators for day trading, swing trading, or even long term investing
- 5) ...And more.

Trading indicators supposed to be helpful in:

- 1) Intelligent Selectivity: How to pick the best opportunities.
- 2) Trade Optimization: How you can minimize risks and maximize potential profits.

I guarantee you these 4 technical analysis tools are not the ones you will hear from your investment advisers, fund manager, retirement planner, or your finance professor in college when they lecture you on how to invest in stocks or any other securities

Everyone --- who is willing to put the time and efforts --- to learn the correct techniques will be able to be a consistently profitable trader / investor in the market.

And the success you will have after learning these new trading indicators is irrelevant to what kind of market the investor is trading. Any financial market --- from stocks, bonds, futures, options, commodities, and even Forex trading. --- will do.

No technical analysis-based trading system works without a solid understanding and application of the right trading indicators.

Don't leave your investment to chances...

...because then frankly, you just gamble your money away. Might as well go to Vegas. More fun.

Editorial Review

About the Author

An active trader, Steve's high interests include the world's stock market (he trades only US market though), investment strategies, personal finance, money management, entrepreneurship, vagabond lifestyle, gin & tonic, Texas Hold'em Poker, Manchester United, and NBA games.

If you are interested in investing or trading, book your FREE course now at <http://Zero2Trading.com/free-trading-course>

Or maybe, take a short, 13-question test to find out your risk tolerance profile. Get the test FREE of charge at <http://Zero2Trading.com/free-stock-trading>

He always holds on to the Warren Buffet's mantra: "Diversification is a protection against ignorance" and thus, Steve does not invest much in mutual fund anymore. Instead, his focus switch to diversification based on asset classes, such as properties and businesses.

Steve's primary asset, however, is his trading knowledge.

He trades the US Equity actively. When trading, Steve focuses on trending and momentum stocks. After wasting close to \$13,000 in commission during Steve's early years trading, he trades only liquid stocks nowadays. His main method is scanning 250 stocks every night to find out the potential opportunities the next day. He then looks for the best setups that would allow him to go for the maximum profits.

It took him exactly five years to be a consistently profitable trader.

He started to write some books, which have become best-selling in Amazon's Business, Investing, Finance, and Education categories, while building his online business at the same time.

When he is not working on his new business, writing, or trading, he can be found reading books about business and money, drinking coffee and/or a little bit of alcohol, traveling, playing basketball or football, watching sports, working out, and hanging out with his old and new buddies.

Steve believes in leaving a legacy will make this world a better, richer, and more peaceful place to live.
