Conflict in Cyber Space: Theoretical, Strategic and Legal Perspectives (Routledge Studies in Conflict, Security and Technology) From imusti

Adopting a multidisciplinary perspective, this book explores the key challenges associated with the proliferation of cyber capabilities.

Over the past two decades, a new man-made domain of conflict has materialized. Alongside armed conflict in the domains of land, sea, air, and space, hostilities between different types of political actors are now taking place in cyberspace. This volume addresses the challenges posed by cyberspace hostility from theoretical, political, strategic and legal perspectives. In doing so, and in contrast to current literature, cyber-security is analysed through a multidimensional lens, as opposed to being treated solely as a military or criminal issues, for example. The individual chapters map out the different scholarly and political positions associated with various key aspects of cyber conflict and seek to answer the following questions: do existing theories provide sufficient answers to the current challenges posed by conflict in cyberspace, and, if not, could alternative approaches be developed?; how do states and non-state actors make use of cyber-weapons when pursuing strategic and political aims?; and, how does the advent of conflict in cyberspace challenge our established legal framework? By asking important strategic questions on the theoretical, strategic, ethical and legal implications and challenges of the proliferation of cyber warfare capabilities, the book seeks to stimulate research into an area that has hitherto been neglected.

This book will be of much interest to students of cyber-conflict and cyber-warfare, war and conflict studies, international relations, and security studies.

Users Review

From reader reviews:

John Folsom:

What do you concentrate on book? It is just for students because they are still students or this for all people in the world, what best subject for that? Merely you can be answered for that question above. Every person has several personality and hobby for every other. Don't to be obligated someone or something that they don't would like do that. You must know how great in addition to important the book Conflict in Cyber Space: Theoretical, Strategic and Legal Perspectives (Routledge Studies in Conflict, Security and Technology). All type of book are you able to see on many sources. You can look for the internet methods or other social media.

Rita Campanelli:

Spent a free a chance to be fun activity to complete! A lot of people spent their down time with their family, or all their friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your personal free time/ holiday? Could possibly be reading a book can be option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to attempt look for book, may be the reserve untitled Conflict in Cyber Space: Theoretical, Strategic and Legal Perspectives (Routledge Studies in Conflict, Security and Technology) can be fine book to read. May be it is usually best activity to you.

Wayne Kong:

In this particular era which is the greater man or who has ability to do something more are more important than other. Do you want to become certainly one of it? It is just simple strategy to have that. What you are related is just spending your time not much but quite enough to get a look at some books. One of several books in the top list in your reading list will be Conflict in Cyber Space: Theoretical, Strategic and Legal Perspectives (Routledge Studies in Conflict, Security and Technology). This book that is qualified as The Hungry Hills can get you closer in getting precious person. By looking upwards and review this e-book you

can get many advantages.

Janelle Ramirez:

What is your hobby? Have you heard that question when you got scholars? We believe that that question was given by teacher to their students. Many kinds of hobby, Every individual has different hobby. So you know that little person just like reading or as reading become their hobby. You need to understand that reading is very important as well as book as to be the factor. Book is important thing to include you knowledge, except your personal teacher or lecturer. You will find good news or update concerning something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is niagra Conflict in Cyber Space: Theoretical, Strategic and Legal Pespectives (Routledge Studies in Conflict, Security and Technology).
