Editorial Review

A month ago I started teaching Elementary and literally wanted to give up and run out of the classes crying after the first 2 weeks!

Then I purchased your ESL games for Elementary and tried the lesson plan for the Alphabet- they loved it! Everyone participated during the whole class and it was a huge success, especially with my IMPOSSIBLE group of 10, 4th grade boys- they had so much fun! Thanks again for your excellent work.

Classes are more fun and the teacher is more confident

I keep using the games from 176 esl games book and so many things have changed for me for the better. My classes are **more fun, I'm gaining more confidence as a teacher and my pupils love the games and are learning very fast!!! It's all been really great!**

Marta Turel, private primary school, Turkey

Your games just shine and sparkle with so many activities offering lots of natural repetition

I have plenty of good ideas of my own (being CTEFLA qualified and I have been teaching kids for some years now) but Wow, I must tell you: **I am really so impressed with all of your abundance of ideas and games and activities!**

Your ideas for games just shine and sparkle with so many activities offering lots of **natural repetition**, in a way that does not look awkward or strange to the weaker students, but just seems natural and keeps them safe and happy! And in fact everyone in class will benefit from this approach of course!

They combine fun with so much repetition that weaker students can be the ones who get more listening practice as they can first listen to the stronger ones, e.g. in your relay game, where the same word is repeated over and over again. **This way one can keep the weaker ones feeling safe in the group. This is extremely important for me, too, because I often have new students join an existing group and/or have to deal with mixed ability classes.**

She saw a change in her pupils behaviour, even the problematic ones!

After purchasing and using the English Language Games for Children games e-book, I see a big difference in my group of 6 year olds. We played our new games **I truly saw a a change in their behaviour**. They participated and were very excited, even the boys that I had problems with. Now at every lesson they ask: What new game are we going to play today?

This teacher has changed the way she feels about teaching now

I really am so glad I found your stuff...it has completely changed the way I feel about teaching now. Before it was something I had always stressed over....the planning, that is....**although I am both Celta and PGCE qualified I still found myself very stressed until every lesson was planned...**which could take for ever.

Since discovering your materials **I sit down to enjoy the planning...and love the teaching.** It uses the fun approach I believe in through the theatre work I have done, and you have given me the confidence to know it can be applied to language learning for this age group.

The kids love it and so do the parents!

All the best Shelley Ann Vernon Teaching English Games About the Author Teacher, musician and creator of Teaching English Games and Home English Teacher. Shelley noticed that children learning English in primary schools managed to go through years of lessons and retain virtually nothing, aside from "my name is ..." and colours. She was determined to get better results for her pupils. Instead of being faced with a class of children who forget the unit no sooner the page is turned, she chose to teach using games, and focus the bulk of class time on the listening and speaking skills, with hundreds of language drills, disguised in fun formats. She created a collection of games from her experiences to share with other teachers. She has since shared her ideas with thousands of teachers around the world, bringing enthusiasm and a love of learning into the classroom, as well as great results. Shelley Vernon holds a BA degree in languages from Durham University, 1989, a BA in music from Canterbury Christchurch College, 2000 and a TEFL qualification. Users Review **From reader reviews:**
