Global Dimensions of Public Administration and Governance: A Comparative Voyage By Jos Raadschelders, Eran Vigoda-Gadot

A comparative, interdisciplinary examination of the mechanisms behind public administration

Global Dimensions of Public Administration and Governance is a comprehensive, comparative text on the structure and function of governments around the world. Written by two of the field's leading public administration scholars, this book provides an interdisciplinary perspective and a global, historical, and theoretical examination of the management and governance of the modern state. Readers learn how territory, bureaucracy, and political systems influence policy and reform in over thirty countries, and how these mechanisms affect the everyday lives of citizens. This comparative approach features rich examples of how policy is shaped by culture, and how modern policy principles are filtered to fit a country's needs and expectations. Chapters conclude with comparative analyses that help readers better-understand the role and position of government in the contemporary world, both in democratic societies and less-than-democratic environments.

Governance doesn't happen in a vacuum. Those responsible for policy, regulation, and reform take cues from history, current events, and visions for the future to inform thinking on matters that can potentially affect a large number of everyday lives. This book illustrates the thought process, providing the necessary insight these important decisions require.

- Understand the relationship between structure and function of government
- Learn how policy is culture-dependent
- Examine the political and societal contexts of reform
- Discover the myriad forms of modern bureaucracy

The various social sciences provide valuable information and perspectives for those involved in public administration. Those perspectives converge here to form a thorough, well-rounded, examination of the success and failure possible, and the mechanisms through which they take place. *Global Dimensions of Public Administration and Governance* provides a detailed, wide-ranging look at how modern governments operate, how they got this far, and where they're headed for

the future.

Editorial Review

From the Back Cover

Praise for

GLOBAL DIMENSIONS *of* PUBLIC ADMINISTRATION AND GOVERNANCE

"This book offers an effective GPS for our complex maps of public administration and governance. Raadschelders and Vigoda-Gadot show us where and why we are now (roots, culture, traditional activities), where we could go (modern government, state making, and nation building), and how to do so (development of governance, visions for practice). With this book, we are not on a 'lonely planet' but in the company of excellent guides in a complex world of different countries, organizations, and policies."

—**Geert Bouckaert**, Professor, KU Leuven; President, International Institute of Administrative Sciences

"Professors Raadschelders and Vigoda-Gadot, leading scholars with particularly well-developed international perspectives, provide a genuinely valuable resource for understanding the globalization that increasingly infuses the theory and practice of public administration and public policy. Moving across 33 nations, they analyze the similar challenges that nations face in advancing public policies, but also the differences in the ways they address those challenges."

—**Hal G. Rainey**, Alumni Foundation Distinguished Professor, School of Public and International Affairs, The University of Georgia

"This is a necessary policy and administration tour for public administrators who are dedicated to delivering public services as promised in the founding documents of hundreds of nation states and millions of their component units of government. Raadschelders and Vigoda-Gadot have written a path-breaking volume that is a vital guide for all public sector stakeholders in a globalized society. The authors distill theory and clarify practice in an effective style that makes the book all the more valuable. If it were required reading across the curriculum, if all practitioners of governance kept it at the ready, then the efficacy and performance of public organizations would help rebuild trust in our most basic institutions."

—**Dean Marc Holzer, PhD**, Board of Governors Distinguished Professor of Public Affairs and Administration, Rutgers University-Newark

"This is the first compendium about comparative politics, administration, and policy truly written for a globalized world. The emphasis is on seeking out both commonalities in institutional structures that appear repeatedly and also on differences emerging from variations in history and culture. Material does not just come from the 'usual suspect' countries, but includes discussions from Laos, Romania, and Columbia, as well as considerable material on China. This book will be read with profit by a wide audience."

—**Steve Kelman**, Weatherhead Professor of Public Management, John F. Kennedy School of Government, Harvard University

About the Author

JOS C.N. RAADSCHELDERS is Professor and Associate Director for Faculty Development at the John Glenn School of Public Affairs, The Ohio State University. A prolific, well-known scholar and teacher globally, Raadschelders' work is widely published in books and in the leading journals in the field.
