Editorial Review

From Publishers Weekly

This rarefied novel adopts the form of the interior monologue characteristic of Lispector's (1925-1977) oeuvre. A woman sits by the open window of her Brazilian beachfront studio, writing a long letter to someone no more specific than "you." She parries with language (which is "only words which live off sound") and is wholly consumed with problems of epistemology: "I want to die with life." A painter, she struggles as well to recreate the world around her: "On certain nights, instead of black, the sky seems to be an intense indigo blue, a color I've painted on glass." When she listens to music, she says, "I rest my hand lightly on the turntable and my hand vibrates, spreading waves through my whole body." While the narrator's self-consciousness ("And if I say 'I,' it's because I don't dare say 'you,' or 'we,' or 'a person.' I'm limited to the humble act of self-personalization through reducing myself, but I am the 'you-are.' ") and diction ("the ultimate substratum in the domain of reality") may strike some readers as academic, others will appreciate the challenges of Lispector's philosophical investigations.

From Library Journal

Artistically reminiscent of this Ukranian-born Brazilian's *The Hour of the Star* (LJ 4/15/86) and *The Passion According to G.H.* (LJ 10/15/88), *The Stream of Life* (published as *Agua viva* in 1973) is as much an extended metaphor for the act of writing as it is the lyrical, plotless monologue of the unnamed female protagonist's awareness of self-realization. Linguistic innovations, including neologisms ("independ"), an abstruse style, and hermetic "discoveries" that are "unsayable and uncommunicable" make this single-chapter novelette difficult, if not unreadable, for all but the persistent. More accessible are the 29 short stories of *Soulstorm*, taken from two collections first published in 1974. The 13 vignettes comprising *Stations of the Body* unify the common theme of pent-up frustrations and repressed sexuality. The esoteric and introspective enigmas of *Where You Were at Night* are more philosophical and experimental; these 16 tales, some fewer than two pages in length, cyclically snatch ideas, motifs, and phrases from one another. A more approachable and attractive sampling of this major 20th-century Latin American feminist writer.
