As a college student, I exactly feel bored to be able to read. If their teacher questioned them to go to the library or to make a summary for some publication, they are complained. Just small students that have reading's heart and soul or real their hobby. They just do what the teacher wants, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that looking at is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise, word says, many ways to reach Chinese's country. So, this *Playing With Her Heart* can make you sense more interested to read.
