Adela Cathcart : Volume II (Illustrated) By George MacDonald

This book is an illustrated version of the original Adela Cathcart by George MacDonald. “Now from whatever cause, Adela is in a kind of moral atrophy, for she cannot digest the food provided for her, so as to get any good of it. Suppose a patient in a corresponding physical condition, should show a relish for anything proposed to him, would you not take it for a sign that that was just the thing to do him good? And we may accept the interest Adela shows in any kind of mental pabulum provided for her, as an analogous sign. It corresponds to relish, and is a ground for expecting some benefit to follow—in a word, some nourishment of the spiritual life. Relish may be called the digestion of the palate; interest, the digestion of the inner ears; both significant of further digestion to follow. The food thus relished may not be the best food; and yet it may be the best for the patient, because she feels no repugnance to it, and can digest and assimilate, as well as swallow it.”
