

Clark's Positioning in Radiography 13E

By A. Stewart Whitley, Gail Jefferson, Ken Holmes, Charles Sloane, Craig Anderson, Graham Hoadley

Clark's Positioning in Radiography 13E By A. Stewart Whitley, Gail Jefferson, Ken Holmes, Charles Sloane, Craig Anderson, Graham Hoadley

First published in 1939, **Clark's Positioning in Radiography** is the preeminent text on positioning technique for diagnostic radiographers.

Whilst retaining the clear and easy-to-follow structure of the previous edition, the thirteenth edition includes a number of changes and innovations in radiographic technique. The text has been extensively updated, including a new section on evaluating images, The 10-point plan, which is linked throughout to a listing of *Essential image characteristics* for each procedure. The section on digital imaging has been expanded not only to elaborate more extensively on the technology but to demonstrate its various clinical applications.

New sections also include imaging informatics and its role in the modern world of medical imaging, holistic approaches to patient care and discussion of the important aspect of the patient journey.

Students will also benefit from more detailed reference to positioning errors and how to avoid mistakes, as well as a greater emphasis on standard radiation protection measures and guidance on the most recent radiation dose reference levels for specific examinations.

Clark's Positioning in Radiography continues to be the definitive work on radiographic technique for all students on radiography courses, radiographers in practice and trainee radiologists.

Editorial Review

Review

"This new edition of *Clark's Positioning in Radiography* is a well written, easy to follow text-book with some very useful additions" – **Lucie Magilton-Griggen, radiographer, University Hospital Aintree, *RAD Magazine***

About the Author

A. Stewart Whitley, radiology advisor, UK Radiology Advisory Services, Preston, UK

Gail Jefferson, senior lecturer/advanced practitioner, Department of Medical and Sport Science, University of Cumbria, Carlisle, UK

Ken Holmes, radiography course leader, Department of Medical and Sport Science, University of Cumbria, Lancaster, UK

Graham Hoadley, consultant radiologist, Directorate of Radiology, Blackpool Fylde and Wyre Hospitals NHS Foundation Trust, Blackpool, UK

Charles Sloane, principal lecturer and radiography course leader, University of Cumbria, Lancaster, UK

Craig Anderson, clinical tutor and reporting radiographer, X-ray Department, Furness General Hospital, Cumbria, UK

Users Review

From reader reviews:

Troy Riley:

Now a day those who Living in the era where everything reachable by connect to the internet and the resources included can be true or not require people to be aware of each details they get. How a lot more to be smart in obtaining any information nowadays? Of course the reply is reading a book. Reading through a book can help people out of this uncertainty Information especially this Clark's Positioning in Radiography 13E book as this book offers you rich data and knowledge. Of course the info in this book hundred per cent guarantees there is no doubt in it as you know.

Mildred Yen:

Reading a e-book can be one of a lot of pastime that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people love it. First reading a book will give you a lot of new facts. When you read a book you will get new information simply because book is one of a number of ways to share the information or even their idea. Second, reading a book will make you more imaginative. When you studying a book especially hype book the author will bring that you imagine the story how the figures do it anything. Third, you are able to share your knowledge to other individuals. When you read this Clark's Positioning in Radiography 13E, you may tells your family, friends and also soon about yours publication. Your knowledge can inspire the mediocre, make them reading a reserve.

Jennifer Barton:

This Clark's Positioning in Radiography 13E is great publication for you because the content and that is full of information for you who have always deal with world and get to make decision every minute. That book reveal it data accurately using great coordinate word or we can declare no rambling sentences inside. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but tricky core information with beautiful delivering sentences. Having Clark's Positioning in Radiography 13E in your hand like keeping the world in your arm, information in it is not ridiculous one particular. We can say that no e-book that offer you world throughout ten or fifteen tiny right but this book already do that. So , this is good reading book. Hey there Mr. and Mrs. stressful do you still doubt this?

Christopher Parker:

Beside this kind of Clark's Positioning in Radiography 13E in your phone, it could possibly give you a way to get closer to the new knowledge or information. The information and the knowledge you are going to get here is fresh in the oven so don't possibly be worry if you feel like an outdated people live in narrow village. It is good thing to have Clark's Positioning in Radiography 13E because this book offers for your requirements readable information. Do you often have book but you don't get what it's facts concerning. Oh come on, that would not happen if you have this in the hand. The Enjoyable blend here cannot be questionable, including treasuring beautiful island. Techniques you still want to miss this? Find this book along with read it from currently!
