### **Editorial Review**

From School Library Journal

Grade 7 Up-Damon does a fine job of presenting sufficient information about Hitler's early family troubles and wartime experiences, and includes an excellent chapter on the intellectual history of anti-Semitism in Germany and elsewhere. He devotes only one chapter to how Hitler put his ideas into practice, and follows up with a description of the survival of those ideas up to the present. Generally the writing is clear, lively, and well suited to literate teenage readers. Excerpts from primary-source documents and good-quality, black-and-white photos and reproductions appear throughout. Eleanor Ayer's *Adolf Hitler* (Lucent, 1996; o.p.), Eileen Heyes's *Adolf Hitler* (Millbrook, 1994; o.p.), James Cross Giblin's *The Life and Death of Adolf Hitler* (Clarion, 2002), Albert Marrin's *Hitler* (Viking, 1987; o.p.), Don Nardo's *Adolf Hitler* (Lucent, 2002), and Dennis Wepman's *Adolf Hitler* (Chelsea, 1985; o.p.) are all excellent biographies that will suffice for most library collections. Of those authors, Giblin alone follows up the Nazis' history with an account of present-day anti-Semitism, and he explains the phenomenon better than Damon does. Damon's book would appeal to readers who are sufficiently interested in the history of ideas to want to go beyond the facts presented in most school curricula.

### **Review**

"The extensive use of quotations, derived from a variety of fully documented sources, makes this powerful as well as interesting. Historical photographs are scattered throughout, several full-text documents are appended, and there are source notes, a lengthy list of further readings and a thorough index. An immediate and valuable way to supplement study."
