Editorial Review

Review

Dental Decks are by far the best resource to use when studying for board exams. I found the Decks to be the most efficient and the most practical way to study...especially when you don't have a lot of time! You can take them anywhere you go...the gym and even when you are waiting for your patients to show up in clinic! -
-K. Badii, USC Class of 2006

To prepare for the exam, I searched weblogs, spoke with international dental students at UBC in Vancouver and called some friends in the United States for advice. They all advised me to buy Dental Decks. Because of my tight budget, I bought Dental Decks Part II. I started to read it and I found: Every subject is perfectly categorized and easy to understand Dental Decks provides tips and tricks for the exams which were helpful Dental Decks provides tables, graphs and diagrams of the material in a useful way Most of questions in Dental Decks were used in prior board exams given in the US or Canada As a user of Dental Decks, I would like to offer special thanks to president of Dental Decks and all who work to make our lives easier. Good luck. --S.Mousavi

The main challenge in board preparation is choosing among all of the study materials out there. Dental Decks totally eliminates this. They are by far the most comprehensive, up-to-date resource available. --C. Stuzynski, University of Maryland Class of 2008
