God, Freedom, and Evil By Alvin Plantinga

In his discussion of natural theology (arguments to prove the existence of God) and natural atheology (arguments for the falsehood of theistic belief) Plantinga focuses on two of the traditional arguments: the ontological argument as an example of natural theology, and the problem of evil as the most important representative of natural atheology. Accessible to serious general readers.

Editorial Review

Review

Harry Gensler

-- John Carroll University

"A witty and logical introduction to the groundbreaking work of Alvin Plantinga, who has done more than anyone else to restore in analytic circles the respectability of belief in God."

Kevin Timpe

-- University of San Diego

"A classic work in the philosophy of religion, Plantinga's *God, Freedom, and Evil* is the single most influential text on the problem of evil in the past fifty years."

Stephen T. Davis

-- Claremont McKenna College

"Alvin Plantinga is one of the top Christian philosophers in the world today. He is well known in Christian and secular philosophical circles for his logical skills, his rigorous arguments, and his energetic defense of full-blooded Christianity. This book covers some of the same ground as his more technical *The Nature of Necessity*, but unlike most of Plantinga's works, it is aimed at the general reader. . . Students can understand this book; they must only be willing to think as hard as they read."

About the Author

Alvin Plantinga is John A. O'Brien Professor Emeritus of Philosophy at the University of Notre Dame. His other books include *Where the Conflict Really Lies: Science, Religion, and Naturalism* and *Warranted Christian Belief*.
