Governance of Water: Institutional Alternatives and Political Economy

From SAGE Publications Pvt. Ltd

This book makes an effort to initiate the discourse of governance of water in the Indian context from a variety of angles, such as neo-classical and institutional economics, deliberative democracy, public administration, collective action and political economy perspectives. Reform in water governance not only includes a re-orientation of policy priorities and approaches, but also the restructuring of the institutional framework away from the state and village dichotomy. New 'intermediate' institutions are required to allow a negotiated approach to water resource governance, multi-stakeholder participation, and integrated water resource management at various levels: the village, state, and nation as a whole.

Editorial Review

Review

The book offers much food for thought...The book raises pertinent, and at times provocative, questions and is therefore worth a read.

--Economic and Political Weekly

The book rightly identifies and discusses issues, challenges and strategies in water governance... this is a must read book for all the people concerned with the development and management of water resources of the country.

--Current Science

This is an all-in-one book - a researcher's guide, a practitioner's manual, a policy maker's bible etc....a valuable publication which every policy maker would love to possess.

--Journal of Rural Development

Makes a case for reforming water governance in India through restructuring the institutional framework away from the state and village dichotomy.

--The Financial Express

Review

The book offers much food for thought...The book raises pertinent, and at times provocative, questions and is therefore worth a read.

(Economic and Political Weekly)

The book rightly identifies and discusses issues, challenges and strategies in water governance... this is a must read book for all the people concerned with the development and management of water resources of the country.

(Current Science)

This is an all-in-one book – a researcher's guide, a practitioner's manual, a policy maker's bible etc....a valuable publication which every policy maker would love to possess.

(Journal of Rural Development)

Makes a case for reforming water governance in India through restructuring the institutional framework away from the state and village dichotomy.

About the Author

Vishwa Ballabh is Professor of Economics and Coordinator for the Centre of Rural Management at the School of Business and Human Resources, Xavier Labour Relations Institute (XLRI), Jamshedpur. Prior to joining XLRI, he was Reserve Bank of India Chair Professor at the Institute of Rural Management, Anand.

Professor Ballabh graduated in Agriculture from Pant Nagar and holds a Ph.D. in Agricultural Economics from the Indian Agricultural Research Institute, New Delhi. He has been a post-doctoral fellow at the International Crop Research Institute for the Semi Arid Tropics (ICRISAT) and was a visiting scholar at Indiana University, USA, and a visiting scientist at the International Rice Research Institute, Philippines. He has over 20 years of teaching and research experience. His research interests include institutions and natural resource management and agricultural development. He is a member of several national and international professional societies in agricultural and natural resource economics. He was vice president of the Indian Society of Agricultural Economics in 1996–97. He has participated in several national and international conferences and has been consultant to several national and international development organisations such as the Ford Foundation, Royal Netherlands Embassy, UNICEF and International Water Management Institute.

He has published widely and edited/co-edited books: *Farm Forestry in South Asia*, *Co-operative Management of Natural Resources* and *Institutional Alternatives and Governance of Agriculture*. He is presently co-editing a book (with Jasveen Jairath) *Droughts and Integrated Water Resources Management in South Asia: Issues, Alternatives and Futures*. He has also co-authored a monograph titled *Organising for Rural Development*.

Users Review

From reader reviews:
