The Beginning: Let there be light (Evidence of Faith Book 2) By Michael L. Dourson

“Some people, in order to discover God, read books[the Bible]. But there is a great book: the very appearance of created things. Look above you! Look below you! Note it. Read it.” (St. Augustine, 354-430)

In the spirit of Saint Augustine, prominent toxicologist Michael Dourson has dedicated himself to demonstrating that nature and the bible are in accord. In this, his second book in the Evidence of Faith series, he boldly tackles the creation of the world. Dr. Dourson does the seemingly impossible, demonstrating that the big bang theory and Genesis tell the same story and that evolution exists alongside Eve as the mother of humanity.

Editorial Review

About the Author

Michael Leonard Dourson has a doctoral degree in toxicology from the University of Cincinnati, College of Medicine. He works at Toxicology Excellence for Risk Assessment, a non-profit consultancy on environmental health issues. He also leads Bible study classes at Mt. Zion Lutheran Church in Lucas, Ohio, and through this activity, discovered a love of integrating science concepts with Biblical text. The Beginning is the second book in a series devoted to this love. Michael is happily married to his first wife, Martha, a farmer's daughter, turned lawyer. They have three lovely children, two lovely children-in law, and one grandson. Mike now considers himself fortunate to be number 7 on Martha's list. Besides gardening, fishing, and publishing (mostly science papers), Michael is active in developing the next generation of scientists and Christians devoted to a fulfilling life.
